

GUIDE TO FINDING A LICENCED AND COMPATIBLE SPACER FOR AN INHALER DEVICE

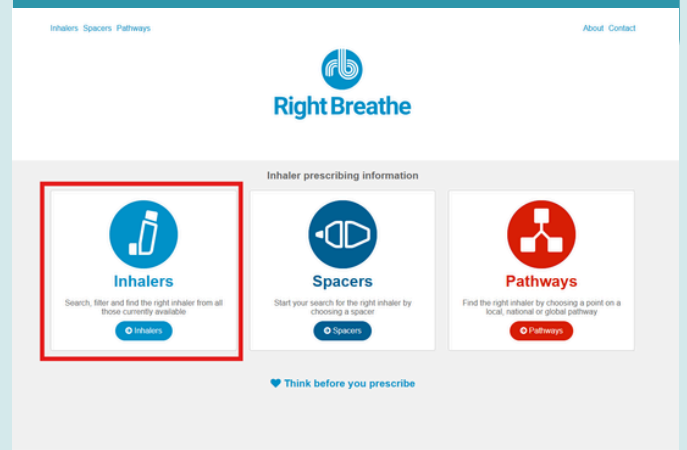

Remember - As per [NICE guideline NG245](#), a spacer device is advised to be prescribed with metered dose inhalers, especially for children who have asthma.

Here is a guide to finding a licensed and compatible spacer device for a given inhaler device.

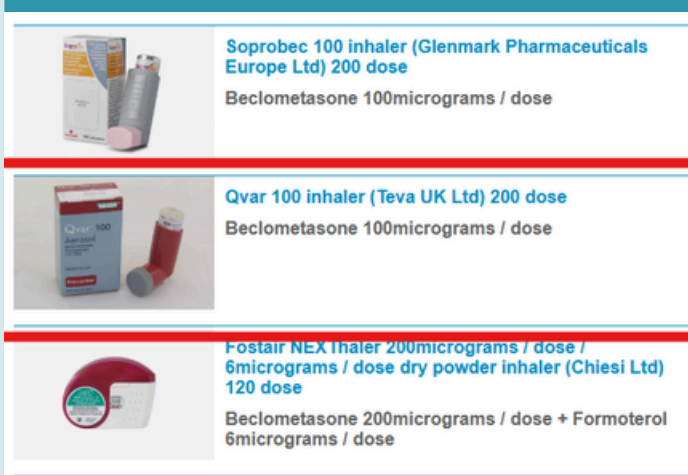

Step 1 - Go to the [Right Breath](#) Website

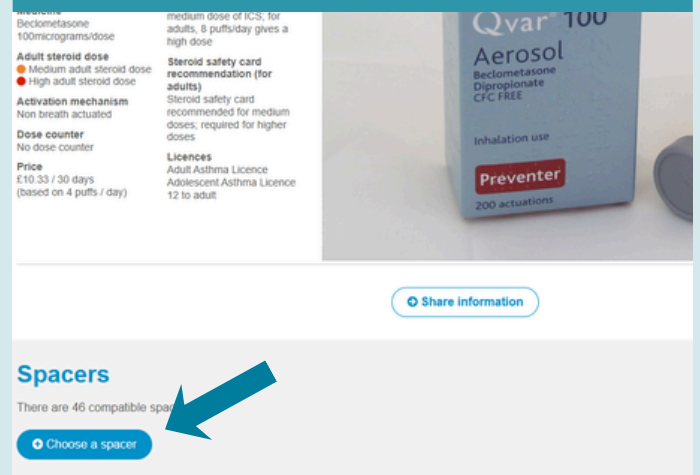

Step 2 - Click on 'inhalers'

Step 3 - Choose an inhaler

Step 4 - Click on 'choose a spacer'

You will be presented with a range of compatible and licensed/unlicensed spacer devices

Small Volume Spacer
