

Hi There,

During this uncertain time we are keen to support the industry and ensure pharmacies remain open. An increase in GAPs will be a major concern over the coming weeks and we want to ensure these are filled.

With this in mind, we are offering free of charge communications to your direct locum pool through our platform.

This will help reduce unnecessary communications, allow office staff to work remotely where possible and get GAPs filled faster.

#### **How does it work?**

1. Upload your direct locums to our booking platform
2. *Your* locums will only be able to access *your* shifts\*
3. You won't pay a booking fee to Locate a Locum for your direct locums

We are offering this service **FREE OF CHARGE** to assist through the current difficulties.

#### **How long will this take?**

Setting this up is a quick and simple process which our expert team will guide you through.

Please get in touch if you would like to avail of this FOC service.

Thanks, Hannah
